

Dear Neighbour

Re: 20 Station Road – 2nd Power Floating Concrete Pour

Following my letter relating to the power floating works successfully completed last week. We are now preparing for the 2nd of our 3 basement pours.

All three pours are of similar size and require a power float finish which we hope didn't cause too much concern or disturbance last Thursday. We will be utilising electric power floats again to minimise any noise generated from the activities.

We will of course aim to be completed as early as possible however the last pour was slightly hampered by roadworks in the area.

The next pour is scheduled to take place on the evening of Friday the 4th June 21.

If you have any concerns, please do not hesitate to contact either the below or alternatively email 20stationroad@rgcarter.co.uk:
