

**Dear Neighbour**

**Re: 20 Station Road – Concrete Pour**

Unfortunately, following some poor weather this week one of our slab pours has been postponed by 1 day and will now take place on Saturday.

We do try to avoid weekend concrete pours where possible however we have spoken to our suppliers and are confident we can complete the slab pour within our standard working hours.

The slab pour is located on the northern half of site away from the residential area surrounding site and we do not foresee any noisy or disruptive elements of works taking place during these times.

We apologise for any inconvenience, should you have any queries please do not hesitate to get in touch with the undersigned.
